APU wins BIM Award

BIM achievement 2020

APU received BIM project 2020 award at the HKCIC Celebration of BIM achievement 2020 that recognises projects, companies and professionals in the building industry, who are passionate in promoting and adopting BIM, achieving important and recognised milestones of BIM.

AWARDS WINNING PROJECT

The First Stage of Tseung Kwan O Desalination Plant

APU provides full BIM services from design concept, submission of plans and production of drawings. APU used Revit for the modelling, BIM 360 cloud platform for project collaboration and Twinmotion for the visualization. Even under the shadow of COVID-19, APU team with the latest BIM technology, provides speedy design changes to accommodate operation requirements and on-time submissions. APU served as the Architect and the Authorized Person.
