

APU wins BIM Award

BIM ACHIEVEMENT 2022

APU was honourably awarded BIM Organization 2022 by HKCIC. The celebration aims to inspire organisations and practitioners to continually be creative, innovative, transformative or disruptive in bringing BIM to its full potential.

Tseung Kwan O Desalination Plant

AWARDS-WINNING PROJECT

The First Stage of Tseung Kwan O Desalination Plant

APU acts as the Architect and provides full BIM services for the project from design stage to construction stage. Revit, BIM 360 and Twinmotion have been adopted for modelling, collaboration and 3D visualization. The adoption of latest BIM technology is one of the keys to success to facilitate the cross-border project collaboration and the smooth operation throughout the Covid-19 challenges.
